# Challenges, issues

---

- 💡 Globalization
- 💡 Most of lectures are only in Japanese and not translated to other languages
- 💡 How to make “think globally, act locally”
- 💡 IP related things
- 💡 Creative Commons is fine but...
- 💡 Time consuming task for clearing
- 💡 Sustainability
- 💡 No national grant or foundation support
- 💡 Awareness
- 💡 Still not so high even in university internally
